Ciputra Development Tbk (CTRA IJ) VAT Subsidy Boosts Marketing Sales

CTRA successfully booked stellar performance in 1Q21. Amid the pandemic, revenue and profit grew significantly by 22.6% YoY and 37.1% YoY. Marketing sales in 1Q21 also have reached 32% of target. Supported by government-born VAT subsidy and vast development land, we estimate the increase of marketing sales to reach 8%-9% this year.

Booked Performance Increase in 1Q21

- In 1Q21 CTRA booked a revenue of IDR1.85 trillion (+22.6% YoY vs IDR1.51 trillion 1Q20). This
 was only slightly below (-0.6%) our estimates.
- Development revenue grew 32.7% YoY. Apartment and land sales contributed most (1,109% YoY, and 236% YoY). Meanwhile, landed house revenue slightly grew at 0.4% YoY.
- Recurring income recorded a decline of 0.9% YoY. Revenue from the mall and hotel segments fell 26.8% YoY and 51.2% YoY, as performance in 1Q20 had not been affected by the pandemic.
- CTRA managed to book an increase in all margins. GPM, OPM, NPM increased to 50.2%, 33.7%, and 13.1% (vs 46.9%, 22.2%, and 11.8% in 1Q20).
- Thus, 1Q21 profit grew 37.1% YoY to IDR243 billion (vs IDR178 billion in 1Q20).

Develop Existing Land to Gain Marketing Sales

- CTRA booked marketing sales of IDR1.9 trillion (+67.2% YoY) or 32% of this year's target at IDR5.8 trillion.
- This year, CTRA have two newly released products. They are landed house in CitraLand Puncak Tidar Malang, and Citra Landmark apartment in Ciracas.
- CTRA will also continue to build new cluster/tower in existing projects and target the end-user segment.
- We estimate CTRA's marketing sales to grow 8%-9% YoY.

Recommend BUY with TP at IDR1.320

- We believe the government incentive in the form of VAT subsidy which is extended until the end of 2021 (previously August 2021), can be the driver for this year's marketing sales income. Especially since CTRA's sales target is dominated by middle-to-low income class.
- We revised our recommendation to BUY, while maintaining TP of IDR1,320 using the estimated discount to NAV of 78.65% (-1.9 SD in the last 3 years). Currently CTRA is traded at a discount to NAV of 84%.
- Risks to our TP revision are: 1) a change in the government's incentive policy, 2) interest rate increase, 3) hike in Covid-19 cases which causes a decrease in purchasing power.
