JCI Movement

Today's Outlook:

The main US indexes rose again in unison during trading (07/07), with new record highs on Nasdaq and S&P500. The continued decline in the benchmark 10-year US Treasury yield has pushed up technology sector stocks. The release of the Fed's June meeting minutes has not yet given an indication of when tapering will start.

Domestically, yesterday's slight decline in JCI occurred amid foreign net sells of IDR 188 billion. Bank Indonesia is scheduled to release the Consumer Confidence Index (IKK) for June, in which investors will pay close attention to the impact of Emergency PPKM implementation on the survey results. Technically, JCI has the potential for a limited rebound in the range of 5,950 - 6,130.

Indonesian Forex Reserves in June 2021 Reaches USD 137.1 Billion

The position of Indonesia's foreign exchange reserves (Cadev) increased in June 2021. Bank Indonesia noted that the foreign exchange reserves at the end of semester I-2021 reached USD 137.1 billion. This amount increased by USD 0.7 billion or 0.51% MoM from the position in May 2021. At that time, Indonesia's foreign exchange reserves were at USD 136.4 billion. The increase in the foreign exchange reserve position in June 2021 was influenced, among other things, by the issuance of the Government's Global Sukuk as well as tax and service revenues. Meanwhile, the position of foreign exchange reserves in June is equivalent to financing 9.2 months of imports or 8.8 months of imports and servicing of government foreign debt. (Kontan)

Fed Officials Kept a Patient Tone

Federal Reserve officials talked tapering at their most recent meeting, but few seemed in a rush to get the process going, according to minutes released Wednesday. The Federal Open Market Committee's June 15-16 meeting summary provided only a few new glimpses into talks about when the central bank should begin reducing the pace of its bond purchases. Some members indicated that the economic recovery was proceeding faster than expected and was being accompanied by an outsized rise in inflation, both making the case for taking the Fed's foot off the policy pedal.
