JCI Movement

Today's Outlook:

Wall Street started the week (11/10) with declines in all three major indexes. Investors are beginning to anticipate a slowdown in growth which is projected to be reflected in the financial performance of the third quarter of 2021. Problems in the supply chain and high oil prices are some of the factors that are expected to increase operating costs.

After significantly strengthening in the previous week, JCI closed lower by 0.34%; although foreign investors still booked a net purchase of IDR 903 billion. The technology sector led the decline after falling quite deep by 3.12%. Technically, JCI has the opportunity to experience further decline with a projected range of movement at 6,400-6,500.

INDY : Targets to Produce 100k Gold in 2024

After completing the acquisition of Nusantara Resources, PT Indika Energy Tbk. (INDY) is ready to spread its wings in the gold mining business. INDY targets to start producing around 100,000 ounces of gold in 2024. Meanwhile, to make a full acquisition of Nusantara Resources, INDY disbursed capital expenditures amounting to US\$42.7 million from internal cash. INDY's acquisition of Nusantara Resources was carried out through its subsidiary PT Indika Mineral Investindo (IMI). (Bisnis Indonesia)

WSBP : Sells 3 Factories Worth IDR 709 Billion

PT Waskita Beton Precast Tbk. (WSBP), will divest 3 of its concrete factories with a value of IDR 709 billion. The release of these 3 factories will be carried out through a tender offer on Wednesday, November 3, 2021. Domestic & Global News

August 2021 Retail Sales Increase

Based on the Retail Sales survey (SPE) of Bank Indonesia (BI), Real Sales Index (IPR) rose. IPR in August 2021 was recorded at 192.5 or up 2.1% MoM from 188.5 in July 2021. Meanwhile, the retail sales increase in August 2021 could not be separated from the easing of the Implementation of Community Activity Restrictions (PPKM). Even on an annual basis, retail sales in August 2021 are indicated to improve, even though they are still in the contraction phase, growing minus 2.1% YoY. However, the contraction is not as deep as minus 2.9% YoY in July 2021. (Kontan)

UST10Y Yield Tops 1.61% to Start the Week

The 10-year US Treasury (UST10Y) yield topped 1.61% early on Monday, as investors seem convinced that the Fed will soon look to taper its asset purchases, despite weaker employment data last week. September's jobs report, released Friday, showed that nonfarm payrolls rose by 194,000 last month. This was well below a forecast of 500,000 new payrolls in September. The weaker jobs report, however, did little to assuage investor concerns that the Fed will soon look to pull back its bond buying program. (Reuters)
