# **Morning Brief**

#### Today's Outlook:

#### **Government Bonds**

**PSUN Market Mixed Ahead of Economic Data.** Entering the beginning of 2022, market participants in Government Securities (SUN) are paying close attention to the release of inflation data and the Manufacturing PMI. December inflation was 0.57% MoM or 1.87% YoY. This figure surpassed the Bloomberg consensus of 0.52% MoM or 1.81% YoY. On the other hand, the Manufacturing PMI index was at 53.3 or remained expansive, compared to 53.9 in the previous month.

#### **Corporate Bonds**

**BSDE:** Net Profit Soared by 154.19%. PT Bumi Serpong Damai Tbk (BSDE) recorded a profit surge of 154.19% on an annual basis in the first nine months of 2021, amounting to Rp 930.77 billion. Revenue until the third quarter of 2021 grew 20.84% to Rp 5.16 trillion. BSDE's profit surge was supported by investment gains. (Kontan)

#### **Domestic Issue**

Indonesian Manufacturing PMI Appears Expansive. Indonesia's Manufacturing Purchasing Managers' Index (PMI) in December 2021 was again in an expansionary trend after reaching the level of 53.5. This indicates an increase in production activity for the fourth month in a row, after the easing of activity restrictions in mid-2021. Indonesia's Manufacturing PMI is also relatively better than several Asian countries. (Kontan)

#### Recommendation

**Government Offers FR0093.** In this inaugural SUN auction in 2022, the government offered a 15-year tenor FR0093 (New Issue) which will mature on July 15, 2037. In this auction, the government has set an indicative target of IDR 25 trillion, with a maximum target of IDR 37.5 trillion. In addition, the government also offers benchmark SUN, namely the FR0090, FR0091, and FR0092 series. Seeing that the trend of low yields is a positive sentiment for the government. On the other hand, the continued high liquidity in the bond market will encourage interest in the initial SUN auction this Tuesday.

#### **Indonesia Macroeconomic Data**
